Resilience and Precarious Success: How Human Adaptation Keeps Patients Safe

Presented by

Mary D. Patterson, MD, MEd

Associate Vice Chair, Medical Education

Research in Simulation & Children's Academy of
Pediatric Educators (CAPE)

Children's National

Learning Objectives

Attendees of this session will be able to:

1. Describe the roles of Safety I, Safety II in Patient Safety
2. Recognize the ways in which humans make use of system capabilities and proactively mitigate the effects of system limits in the quest to improve the healthcare delivered to patients.
3. Describe the four primary activities of resilience engineering

Accreditation Information:

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of INOVA and Children's National Medical Center. The INOVA Office of Continuing Medical Education is accredited by the MSV to provide continuing medical education for physicians.

The Inova Office of Continuing Medical Education designates this live activity for a maximum of 1 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity. Physicians may claim up to 1 credit in Type 1 CME on the Virginia Board of Medicine Continued Competency and Assessment Form required for renewal of an active medical license in Virginia.
