

About Children's National

Children's National Health System, based in Washington, DC, has been serving the nation's children since 1870. Children's National is ranked in the top 20 in every specialty evaluated by *U.S. News & World Report*—one of only four children's hospitals in the nation to earn this distinction. Designated a Leapfrog Group Top Hospital and a two-time recipient of Magnet® status, this pediatric academic health system offers expert care through a convenient, community-based primary care network and specialty outpatient centers. Home to the Children's Research Institute and the Sheikh Zayed Institute for Pediatric Surgical Innovation, Children's National is one of the nation's top NIH-funded pediatric institutions. Children's National is recognized for its expertise and innovation in pediatric care and as a strong voice for children through advocacy at the local, regional and national levels.

Components of Children's National:

- The Sheikh Zayed Campus for Advanced Children's Medicine features an acute care hospital with 313 beds; a Level I pediatric trauma center, which serves three states; and a critical care transport program via ambulance, helicopter and fixed-wing airplane
- Seven outpatient centers that provide specialty care around the region, including an Ambulatory Surgery Center
- Children's National Specialists of Virginia, LLC, a private, physician office-based practice affiliated with Children's National
- Pediatric Specialists of Virginia, LLC, a joint physician practice with Inova Health System to enhance access to specialty care for children in Northern Virginia
- A primary care network that includes health centers within the District of Columbia and Children's Pediatricians & Associates (CP&A) throughout Maryland and the District of Columbia
- Children's National Health Network with 1,400 affiliated pediatricians
- Children's Research Institute, a leader in basic and clinical research programs
- Two large emergency departments, located at the main campus and on the United Medical Center campus
- Other programs that focus on school health services, mobile health services, community partnerships and safety campaigns

Clinical Specialties and Programs

Adolescent and Young Adult Medicine

*Children's National employed an additional 274 employees as a part of Pediatric Specialists of Virginia, LLC

**MORE THAN
97,000**

hours of service
donated by
1,331 volunteers.

2,010 PATIENTS

from 21 countries
around the world
sought care at Children's
National through the
Global Services Program.

In 2015, Children's National provided

\$108,011,207

in community benefit.

In 2015, Children's National provided

\$63,684,706

in uncompensated care.

Research

- There are more than 1,100 active clinical research projects conducted at Children's National.
- More than 66.84 percent of Children's research funding comes from federal agencies, including 54.67 percent from the National Institutes of Health (NIH). Children's is ranked seventh in the country for NIH pediatric funding.
- Children's researchers are investigating a multitude of pediatric diseases and novel treatments, including:
 - ADHD
 - Airway and lung diseases
 - Asthma
 - Autism
 - Bleeding disorders
 - Brain and spinal cord injuries and protection
 - Childhood cancer, including blood, kidney and brain tumor
 - Cerebral palsy
 - Congenital heart disease
 - Drug and device development
 - Epilepsy
 - Fetal medicine
 - HIV/AIDS
 - Immune therapy
 - Inborn errors of metabolism
 - Infectious disease
 - Inflammatory disease
 - Intellectual and developmental disabilities
 - Mental health
 - Muscular dystrophies
 - Neurofibromatosis
 - Obesity and type 2 diabetes
 - Pain medicine
 - Renal disease
 - Renal tumors
 - Sickle cell disease
 - Stem cell transplantation
 - Traumatic brain injury
 - Urea cycle disorders

Advocacy and Community

- Safe Kids Worldwide, launched by Children's National in 1987, works to prevent accidental childhood injury, the leading cause of death in children 14 years and younger, through a global network of organizations. Our local coalition, Safe Kids District of Columbia, has performed a total of 972 car seat inspections in fiscal year 2016.
- The Child Health Advocacy Institute (CHAI), launched at Children's National 10 years ago, focuses on child-centered policies and works to address community health needs including mental health and health literacy. In partnership with community organizations, government agencies and individuals, CHAI supported over 90 programs and activities in fiscal year 2015, providing more than \$100 million in community benefit.
- Children's School Services (CSS) provides the operational oversight and management of school nursing services in the District of Columbia Public Schools (DCPS) and DC Public Charter Schools (DCPCS), with oversight from the District of Columbia Department of Health. The 165 school-based nurses in the Children's School Services Program (CSS) had more than 482,607 health encounters with District of Columbia public school and charter students during the 2015-2016 school year.

Education

- Clinical training is provided to 120 pediatric residents and 170 fellows and other graduate trainees each year.
- Each year, pediatric training is provided for approximately 186 third-year medical students from the George Washington University (GW), 120 third-year medical students from Howard University and 200 fourth-year students from GW and other medical schools.

(Most facts and statistics are based on Fiscal Year 2016; community benefit and uncompensated care are calculated from Fiscal Year 2015.)
