Children's National is a premier pediatric hospital in Washington, D.C., celebrating 150 years of pediatric care, research and commitment to community. Today, 150 years stronger, it is among the nation's top 10 children's hospitals. It is ranked No. 1 for newborn care for the fourth straight year and ranked in all specialties evaluated by U.S. News & World Report. Children's National is a transforming pediatric medicine for all children. In 2020, construction will be complete on the Children's National Research and Innovation Campus, the first in the nation dedicated to pediatric research. Children's National has been designated twice as a Magnet® hospital, demonstrating the highest standards of nursing and patient care delivery. This pediatric academic health system offers expert care through a convenient, community-based primary care network and specialty outpatient centers in the D.C., metropolitan area, including the Maryland and Northern Virginia suburbs. Children's National is home to the Children's National Research Institute and Sheikh Zayed Institute for Pediatric Surgical Innovation and is the nation's seventh-highest ranked children's hospital. It is ranked No. 1 for newborn care for the fourth straight year and ranked in all specialties evaluated by U.S. News & World Report. Children's National is transforming pediatric medicine for all children.

**Children's National offers families comprehensive pediatric and dental care through our mobile medical program, which strives to improve the health and well-being of medically underserved children in Washington, D.C., in Wards 7 and 8. For more information, call 202-426-5356.**

**Health Insurance**

Children's National accepts nearly every insurance plan, private payments and Medicaid. Additionally, Children's National provides care to children and families regardless of their ability to pay. If a patient does not have insurance, Children's National can help get coverage or financial support. Please visit ChildrensNational.org/Insurance for resources.
Children’s National Hospital

This hospital located on the Sheikh Zayed Campus for Advanced Children’s Medicine, but also on the outpatient and specialty centers throughout the Washington, D.C., metropolitan area. These locations make it convenient for families to access clinical expertise at Children’s National. Specialties include imaging, cardiology, gastroenterology, surgery, oncology, neurology and much more.

Children’s National is a freestanding, not-for-profit children’s hospital in the metropolitan Washington, D.C., area. The hospital is home to the region’s busiest Emergency Department and is designated a Level 1 Trauma Center, the highest rating available. The state-of-the-art East Inpatient Tower is designed to enhance family-centered care. The tower has private patient rooms, each with a two-story atrium space for parents or guardians to stay overnight with their child and many amenities, including Internet access. The hospital features state-of-the-art operating rooms with wireless, robotic equipment for minimally invasive procedures, sophisticated monitoring and real-time, 3-D Imaging of the operating room and teleconferencing capabilities enhance education and training opportunities.

Satellite Emergency Department

Children’s National operates a full-service Emergency Department at United Medical Center, located at 1331 Southern Ave. SE in Washington, D.C. Families are encouraged to consult with primary care doctors or health center care teams in deciding when to use the Emergency Department for serious illnesses or injuries. For more information, call 202-741-4100.

Children’s National Research Institute

Children’s National Research Institute (CNRI) is the academic arm of Children’s National. Located on the top floors of the hospital, CNRI encourages scientists, clinicians, nurses and other Children’s National staff to undertake research projects that will positively impact the care of children. Through the institute, Children’s National offers our patients exclusive access to many pediatric clinical trials addressing a full spectrum of childhood illnesses.

Children’s National Patient Centered Core Offices

The renowned specialists at Children’s National practice at one of the nation’s most comprehensive medical centers. These core offices are located in Maryland and Washington, D.C. The practices are staffed by pediatricians and nurse practitioners who provide comprehensive health care services including immunizations, well care, checkups, diagnosis and treatment of illness including care for children with complex and special needs. Children’s National Pediatricians and Associates (CNPA) sign up of affiliated primary care practices owned and managed by Children’s National. Visit childrensnational.org/primary-care for details on each office’s physicians and extended weekend and evenings hours.

Community Hospital NCU Partnerships

Our Division of Neonatology, ranked No. 1 in the nation, extends its services to care for more neonatal patients in our region by partnering with community hospitals. These partnerships extend the high-quality care offered at the Children’s National NICU on the main campus to other areas of the Washington, D.C., metropolitan region, bringing expert care to more patients.

Children’s National Outpatient Centers and Specialty Services
