

CD LYRIC RESPONSE ART

Materials

- Any old CD or use the template below
- Materials to decorate such as: paints and a paint brush, Sharpies or permanent markers, collage materials, scissors and glue

Directions

Listen, read the lyrics, and choose a song from the list (or use your own song). This works best if the song inspires something in you as you will be using the lyrics to inspire your art. You don't have to like the song; it just needs to speak to you in some way.

If using an old CD: use whatever materials you have to create a design on the colored side (not shiny) to respond to your song.

If using the template: if you are using the CD cut out we recommend printing on cardstock or thick paper then cutting along the red lines. To decorate, you can use any materials for paper and even use both sides.
