How To Use Your Twisthaler

1. Stand up.

2. Hold the Twisthaler upright like a rocketship with the pink base on the bottom.

3. Hold the pink base and twist the white cap off. The counter will count down by one as you twist off the white cap.

4. Breathe all the air out of your lungs.

5. Turn the Twisthaler flat on its side. Close lips tight around the mouthpiece. Take a big, fast, deep breath in.

6. Take the Twisthaler out of your mouth and hold your breath. Count to 10 slowly.

7. Replace the cap on the inhaler and twist until it clicks and is tight. Breathe out slowly, like cooling soup on a spoon.

8. Rinse mouth out with water and gargle. Do not swallow.

Remember:
- Keep your Twisthaler in a cool, dry place
- Do not shake your Twisthaler
- Do not get your Twisthaler wet.
- Do not blow into your Twisthaler

How to Use Your Diskus

1. Stand up.

2. Hold the Diskus flat like a hamburger. Put your thumb in the holder and push away until it clicks to uncover the mouthpiece.

3. Slide the lever back until it clicks. Remember to keep your Diskus flat like a hamburger.

4. Breathe all the air out of your lungs.

5. Put the Diskus in your mouth, keeping it flat like a hamburger. Take a big, deep, fast breath in.

6. Take the Diskus out of your mouth and hold your breath. Count to 10 slowly.

7. Close the Diskus to cover the mouthpiece. Breathe out slowly, like cooling soup on a spoon.

8. Rinse mouth out with water and gargle. Do not swallow.

Remember:
- Store your Diskus in a cool, dry place
- Do not shake your Diskus
- Do not get your Diskus wet
- Do not blow into your Diskus

How to Use Your Inhaler and Spacer With Mask

1. Have your child stand up.

2. Take off the cap and make sure the opening is clean. Shake inhaler for five seconds.

3. Put the inhaler into the spacer.

4. Cover your child’s mouth and nose completely with the mask.

5. Push the inhaler once so that the medicine sprays into the spacer tube.

6. Let your child take seven slow, deep breaths while the mask stays on his or her face.

Take your time
The more slowly and deeply your child breathes in, the more medicine he or she will get.

Need two puffs?
Wait 60 seconds and repeat all steps.

- If your inhaler is new
- If you have not used your inhaler in two weeks
- If you drop your inhaler

Then: You need to “prime” your inhaler. Spray four puffs into the air before you use your inhaler.

Remember:
- Always use your inhaler with a spacer
- Keep track of your doses if there is no counter on your inhaler
