Psychiatry & Behavioral Sciences New Patient Intake Packet

Dear Parent or Guardian,

Thank you for choosing Children's National Health System for your child's care. Per your request, I am sending you the new patient intake packet. We have a wide variety of general and specialized psychiatric services available in our department. We are an academically driven program that incorporates trainees at every level of clinical services.

We have a detailed intake process that is designed to improve efficiency and provide the best service possible. In order to set up an appointment and receive an appropriate evaluation for your child, we ask that you carefully fill out all of the enclosed forms as completely as possible and return to us. Once we receive your packet, our team will review the information to determine the appropriate clinician and appointment for your child and contact you to make an appointment.

Please include when returning:

1. A copy of your child's most recent physical exam and immunization records
2. A copy of the front and back of your child's insurance card

Please note:

- We see children from ages 2 to 17 ½ years old.
- For all forensic and court ordered cases, please pursue appropriate community resources.
- Currently the Psychiatry and Behavioral Medicine Division Out-Patient Clinic is out of network with the following insurances and any appointment scheduled will be self-pay: BCBS HMO, CIGNA and Straight VA Medicaid.

Please be advised the appointments that we schedule are located at our main campus in Washington, DC.

Methods for returning your packet are as follows:

Thank you for choosing Children's National Health System for your child's care.

INFORMATION ALL PARENTS SHOULD KNOW ABOUT MENTAL HEALTH INSURANCE COVERAGE

Children's National Health System's Outpatient Psychiatry Department provides in-network services for a wide variety of insurance providers. We also provide documentation of billing and services if you prefer out-of-network coverage.

Please note that mental health coverage is frequently very different from other types of medical coverage. Benefits allowed by your insurance provider are frequently subject to change. We strongly encourage you to contact your insurance provider or benefits administrator to verify the specific mental health services covered by your insurance plan.

- **Verification of mental health benefits and preauthorization for services:** As a courtesy to you, we obtain information regarding your mental health benefits and preauthorization before your first visit. You will be provided with the information we are given by your health plan and we encourage you to refer to your policy manual or call your plan to confirm the information provided to us.
- **Co-payments:** Costs are often a percentage of the charges incurred instead of a fixed dollar amount. Information about co-payments for mental health services is rarely listed on an insurance card but can be obtained by calling your plan.
- **Deductibles:** Mental health services can have different deductible requirements than other medical services covered by your insurance plan. If the deductible required by your plan has not been reached at the time of your appointment, we may need to collect the full amount for services at the time of your appointment.

- **Referrals:** If your child is covered by a managed care insurance plan requiring referrals, you must obtain referral forms from your child's primary care physician prior to your visit. Please note that if a written referral is a requirement of the insurance company we must adhere to the plan's administrative requirements in order to receive payment on your behalf.
- **Limits:** Mental health benefits can have limits to benefits paid per calendar year or plan year. Please consult your policy manual regarding your maximum calendar year or plan year benefits.
- **Testing:** Neuropsychological, psychological, and developmental testing benefits are verified by our staff. Most insurance companies limit the number of testing hours benefits will cover. If your child requires testing beyond the number of hours authorized, you have the option of paying for the additional hours required for testing.

Welcome to Children's National Health System. We are delighted your family has chosen to receive care here and we look forward to working with you and your family. In the Division of Psychiatry and Behavioral Sciences we provide a vast array of services. Currently, the Division of Psychiatry does not provide forensic services to children, adolescents, and their families. Disputes between parents regarding custody and visitation matters are considered forensic matters and are beyond the scope of services that we provide. However, in families in which divorce has already occurred and where care is not being sought as part of a dispute over custody or visitation we will ask for a copy of the legal custody rights of the parents in order to delineate which parent has the ability to legally consent to a psychiatric evaluation and ongoing treatment. If both parents share legal custody, both parents will be asked to participate in the psychiatric evaluation and ongoing treatment of the child. When possible, the best care of the child is optimally provided when both parents are able to participate in their child's care.
