

Psychologists at Children's National Hospital

The Division of Psychology and Behavioral Health at Children's is committed to improving the lives of children, adolescents and families through the provision of world class behavioral and mental health care.

AT CHILDREN'S NATIONAL, THERE ARE:

>50

Clinical and Developmental Psychologists working in the Division of Psychology and Behavioral Health, as well as in various medical specialty divisions

PSYCHOLOGY SERVICES

Our expert child clinical psychologists provide outpatient evaluation and treatment services to help children, adolescents and young adults with:

anxiety, sadness, inattention, behavior, eating, parent-child interactions, adjustment, coping with chronic medical conditions and school concerns

Child Development Program

conducts developmental evaluations and diagnostic assessments of infants and toddlers **0-3** years of age

To access these services, call the intake line: 202-476-5405

Whole Bear Care

psychology is integrated into Children's National **Primary Care Centers** across D.C., providing services to historically under-served children and their families.

PSYCHOLOGY RESEARCH

Our researchers study the medical and behavioral conditions affecting children and families and develop state-of-the-art therapies and treatments for generations to come.

OUR MISSION

Through respectful, culturally sensitive and evidence-based direct patient care, our psychologists strive towards supporting youth and their families in the process of healing, maintaining overall wellness and coping with chronic medical and behavioral conditions.

Our faculty members are dedicated to serving the behavioral and mental health needs of the larger community by focusing on:

Clinically Relevant Child Health Research

Child Health Advocacy

Training the Next Generation of Providers
