

RE: [Patient Name]
DOB [DATE OF BIRTH]
COVID-19 School Letter

To Whom It May Concern:

I am the primary care provider for [PATIENT NAME] who has a history of asthma that is not well controlled and/or severe persistent. At this time, [PATIENT NAME] should not attend school in person when such instruction is offered by their school. They should engage in virtual or distance learning from home during the COVID-19 pandemic until further notice. If their asthma status improves, this recommendation will be revised. All possible accommodations should be made to provide appropriate educational support during this period to maximize learning opportunities. Individuals living with chronic pulmonary disease, including asthma, are considered a protected class under the Americans with Disabilities Act (ADA).

If you have any further questions, please do not hesitate to contact me.

Sincerely,
