At Children's National Health System, our physicians and researchers have pioneered treatments used around the world to cure cancer in children. One of our scientists helped identify the gene that causes the most common type of muscular dystrophy. And our team performs nearly 15,000 surgeries a year on children—from babies a few hours old to teenagers.

If we could bring this world-class care to your home, we would. Instead, we have done the next best thing by providing the same quality of care as the hospital, only closer to your home in our Regional Outpatient Centers or affiliated practices.

Directions
* Please follow the driving directions listed. GPS systems often do not provide correct directions.

FROM MARYLAND: Go south on Massachusetts Avenue, around Westmoreland Circle, into DC. At the first stoplight, turn right onto 50th Street, and left into the parking lot. Children’s is located in the building facing Massachusetts Avenue at the far end of the parking lot.

FROM NORTHERN VIRGINIA: Cross Chain Bridge into DC and turn right onto Canal Road. Go south on Canal 1/2 mile, then turn left onto Arizona Avenue to MacArthur Boulevard. Turn left onto MacArthur, then right onto South Loughboro. Turn left onto Dalecarlia to Westmoreland Circle and take the first right onto Massachusetts Avenue, southbound. At the first stoplight after the circle, turn right onto 50th Street, then left into parking lot. Children’s is located in the building facing Massachusetts Avenue at the far end of the parking lot.
