VOLUNTEER SERVICES
Patient Play Date Request Form

Details

Patient Play Dates involve arts and crafts activities, karaoke, game days, carnivals, or movie showings for patients from our outpatient clinics, inpatient units, and their siblings. Community partners are responsible for providing the materials for these events, and we encourage groups to find materials and activities that are engaging and are different and unique from what the patients might be able to do at home or when in their hospital rooms. We typically expect between 30 and 50 children for daytime events and 5 to 20 children for evening and weekend events. We ask that you prepare materials for 40 to 50 children for all events, and any additional materials will be donated to Dr. Bear's Closet. Please include activities for kids of all ages (toddlers to adolescents).

Monetary or In-Kind Donation Requirement

\$2,500 total (at least \$500 in monetary donations or gift cards and \$2,000 in in-kind donations, including all of the art supplies for the event). In-kind and monetary donations must be delivered to the hospital two weeks prior to the event; however, art supplies for an event should be listed in detail on this form and brought in on the day of the event.

Group/Organization:

Number of Participants:

(a minimum of eight individuals and maximum of fifteen individuals from your group)
