

# How Donations Help

With the support of our generous donors and community partners, Children's National ensures that every child has access to the care they need, regardless of their condition or their family's ability to pay. Your support allows us to treat the whole child, not just their disease, so even in the hospital, kids can play, imagine, and create.

A donation of **\$50,000** helps pay for a **child life specialist** to ease the anxiety of kids and families at Children's National.

A donation of **\$25,000** helps supply **one year of coloring kits** for all of our 18 campuses, helping kids be kids, even when they're at the doctor's office.

A donation of **\$10,000** helps fund the **mobile dentist program** providing free dental screenings and treatment for at-risk youth.

A donation of **\$5,000** helps pay for a **year's worth of clothes** for children treated in our Emergency Department.

A donation of **\$1,000** helps purchase **educational tablets** allowing kids to play, read, and learn directly from their hospital bed.
