

Children's National™

## PEDIATRIC RESIDENCY PROGRAM 2016

# GUESS WHAT?

WE HAD ANOTHER AMAZING YEAR FOR THE  
PEDIATRIC RESIDENCY PROGRAM IN THE 2016  
NATIONAL RESIDENT MATCHING PROGRAM.

**2,622** APPLICATIONS  
RECEIVED

**474** TOP APPLICANTS  
INTERVIEWED

2016 saw the strongest academic caliber of matched candidates. USMLE board scores were the highest on record, and 43% were members of the prestigious Alpha Omega Alpha honor medical society. In comparison, only 9% of pediatric residents NATIONWIDE are in AOA!

2016 means great things for the Children's Pediatric Residency Program. Successfully recruiting the strongest pediatric residents enhances our ability to deliver the very best family-centered care to our patients.

The new intern class is also the most diverse class, with 20% self-identifying as URM (underrepresented in medicine), compared to the national average of 14%. Our program is committed to improving child health disparities through enhancing diversity in academic pediatrics!

**40** INTERNS  
MATCHED

Visit the Children's Pediatric Residency website ([www.childrensnational.org/pediatricresidency](http://www.childrensnational.org/pediatricresidency)) to learn more about our amazing program.

Two-thirds of all fourth-year medical students who apply for pediatric residency nationwide apply to Children's National - demonstrating the amazing recognition for our institution at a national level.
